ALBERTA BUSINESS
FAMILY INSTITUTE

is proud to honour:

The Rosenau Family

 UNIVERSITY OF ALBERTA
ALBERTA SCHOOL OF BUSINESS

PENNY LECKIE
Chair, Advisory Board
Alberta Business Family Institute

Greetings and Welcome

Alberta was built by individuals, with a vision, working hard and taking risks. These men and women did not see themselves as family businesses. Rather, they saw themselves as providing for their families.

Family business continues to be the bedrock of the Alberta economy. Business schools now realize while there are certain challenges associated with family business, there are also unique advantages and opportunities. With proper assistance, advantages will exceed challenges.

The University of Alberta School of Business is a global leader in the study of family business, and through Alberta Business Family Institute, provides resources and guidance to business families so they can succeed for generations to come.

We are grateful the Rosenau Family is willing to share their remarkable journey at our 16th Annual Signature Event. Thank you for supporting Alberta Business Family Institute through your attendance and sponsorship. We hope you enjoy this intimate learning experience and celebration of the advantages of family business.

If you appreciate this evening's experience, please help us connect with business families and advisors to share our resources, assist them with their challenges and to continue celebrating the advantages of family business.

Leadership

Noisy is the mountain river
Cutting its channel through the rocks.
For all its deafening work and attention
It draws to itself,
It accomplishes little
In contrast to the Nile, Yangtze, or Amazon.
With inner fortitude,
Those who truly lead effectively do so with an influence
That quietly moves those around them
Towards one common vision.
A view towards honour, respect, and discipline
Quiet attributes, like great rivers, that bring about real change.
