At the Alberta Business Family Institute, we believe that family businesses are the heart and soul of our province. Family businesses employ our neighbours, support our communities and grow our economy.

To continue to ensure the foundation of Alberta businesses the Alberta Business Family Institute provides guidance and tools to business families so that they can continue to build on their success.

The Alberta Business Family Institute is "run by families for families" to provide a direct link between business families and the research and study of family enterprise internationally and at the University of Alberta School of Business, Centre for Entrepreneurship and Family Enterprise.
